

The Entrepreneur's Program

YOUR SUPPORT SYSTEM FOR PERSONAL AND BUSINESS SUCCESS

Do you want to grow a business that inspires customers, investors, and team members?

The CBI Entrepreneur's Program combines real world business support with personal mentoring. This program supports entrepreneurs in building successful companies that inspire and fulfill the deeper needs of individuals within the organization.

Topics covered:

- Create an inspiring, authentic, and sustainable business
- Create an organization that investors, customers and talented people want to get engaged in
- Combine financial success with personal fulfillment and flow
- How to eliminate the causes for struggle and stress in your business
- Obtain expert guidance for growing your business

The CBI Entrepreneur's Program provides the support system for growing a successful business. You will gain a clear understanding of how to use your unique gifts and talents to improve the financial performance of your business. You will know the steps for building an organization that ignites your passion, engages customers, attracts talent, and satisfies investors.

The CBI program showed me new dimensions of myself and the world of business I hardly knew existed. It was instrumental in our transition from a wobbly-legged company to a highly professional marketing & advertising business. The real world strategic advice was extremely valuable; however, the emotional continuum was the key for our success. Within two years our revenues grew more than 700%.

If you think about working with the Conscious Business Institute, my recommendation is this: stop thinking! You simply can't afford not to work with them. And the best is: it's a lot of fun.
