

Executive Coaching Program

GROW YOUR CAREER BY COMBINING PERSONAL FULFILLMENT WITH FINANCIAL SUCCESS

Are you living your full potential? Do you want to improve your career in a way that is aligned with your purpose?

The CBI Executive Coaching Program enhances personal and professional success by combining real world business advice with unique coaching methodologies. This program supports business professionals and executives in becoming better leaders. It helps participants creating successful careers that fulfill their deeper personal needs.

Topics covered:

- Identify your personal way to lead
- Use your unique gifts and talents to excel in your career
- Eliminate the hidden causes for struggle and stress in your career
- Engage and align your team so that it fully supports your company's mission
- Create trust, integrity, and a clear sense of direction in your company

The CBI Executive Coaching Program provides an understanding of your unique gifts and talents and clear direction for your life. You will know how to use your talents to inspire and empower your employees. You will see the energetic patterns that cause emotional conflicts and struggle in your career. With a clear guideline for changing these patterns, you can create a career that is more empowered, authentic and an inspiration for others.

The CBI program showed me new dimensions of myself and the world of business I hardly knew existed. It was instrumental in our transition from a wobbly-legged company to a highly professional marketing & advertising business. The real world strategic advice was extremely valuable; however, the emotional continuum was the key to our success. Within two years our revenues grew more than 700%.

If you think about working with the Conscious Business Institute, my recommendation is this: stop thinking! You simply can't afford not to work with them. And the best is: it's a lot of fun.
